BANGALORE.

Sir,

I have the honor to submit here-
with for favor of early sanction an
estimate for Rs 41,400/- for improving
the surroundings of old Tharagubik
received with the Sanitary Superin-
tending Engineer's docket no 1807/694
dated the 14th August 1900 (a copy
of which is herein enclosed for re-
- ference). The Board, at the meeting
held on the 27th September 1900, appro-
- ved of the project, with slight altera-
- tions in detail and resolved that
the Government be requested to

advance the required amount
as a loan to the Municipality & enable it
to take up and complete this urgent
work as early as possible. A Copy
of the Boards Resolution is also
herewith Submitted for the in-
formation of Government

I have the honor to be

Extract from the Proceedings
of the Board of the 27th September 1900

·x·

·x·

·x·

Read
Docket No. 1807—694, dated ^{the} 14th August 1900, from the Superintending Engineer, Sanitary Works, forwarding copy of the Chief Engineers's docket No 3435, dated 9th idem, returning the estimate amounting to Rs. 41,700 for improving the surroundings of old Taragupete, and requesting to obtain the sanction of Government therefor.

Resolved that the opening of the Conservancy lanes, one to the north and one to the south of the old Tharagupete (both parallel to it), be undertaken as also all the proposed Cross roads from the said Conservancy lanes to Mamoolpet and Siddikatte. Further resolved that such of the proposed Cross roads from the Tharagupete to the said Conservancy lanes, as may be done within the said sum of Rs 41700, be made

Resolved also that the Estimate be submitted to Government

with the remark that the Board
are unanimously of opinion that
this is a very necessary work
which requires to be done at once
and with a prayer that the
Government may be graciously
pleased to advance the sum
wanted as a loan to the Muni-
-cipality.

For President

msk
—

Report to accompany the Estimate
of the cost of improving the surroundings
of the old Tharayapetta. Bangalore City

References:-

The accompanying Estimate provides only for opening out the following lanes and streets at a cost of Rs 41,700:-

- (1) A Conservancy lane to the South - 5,700
- (2) 5 Cross streets to the South 18,300
- (3) A Conservancy lane to the North in three lengths 7,500
- (4) Side cross streets to the North 9,200

2. It does not provide for widening the present Tharayapet, which is Estimated to cost Rs 1,19,500

3. The Plan is 7

-2-

and the President of the Muni Board are very anxious that the surroundings should be improved by isolating the mounds, that is, by separating them from residential quarters. On account of the heavy cost of acquiring the properties involved, these lands were not included in the Estimate for opening out the congested parts. The houses to be acquired under this Estimate, have to be valued, not on the intrinsic cost of the structure, but on the rental basis. Hence the heavy cost of the work which has to be dealt with separately, so as not to constitute an inconvenient precedent for the acquisition of houses in other parts of the City.

No. 111
2
From

THE PRESIDENT,

Municipal Commission,

BANGALORE CITY.

To

THE SECRETARY TO THE GOVERNMENT OF MYSORE,

General and Revenue Departments,

BANGALORE.

Sir,

Adverting to this Office letter
No. 111 dated the 15th October 1900,
I have the honor to request
the favor of early sanction of
Government being obtained
to the estimate of Rs 4,1400/-
Submitted therewith an account
of the improvement of all
Thargupete as the Board having
at the last meeting again con-
sidered the urgency of the
work, decided upon requesting
the Government once more!

expedite their sanction to the Estimate referred to. Copies of Resolutions in this connection as well in connection with the raising of a loan to meet the cost of a few such works of urgent nature are herewith submitted. The cost of the work, is proposed to be met from the $3\frac{1}{2}$ lakhs of Rupees which the Board have resolved to raise as a loan. (Vide this Office letter No 85 dated 13th September 1901).

I have the honor to be
Sir
Your most obedient servant.

Most respectfully

President

W. S. K.

Extract from the Proceedings
of the Board of 30th August 1901

12. Docket No. $\frac{2574-}{27.225-92}$ of the 10th August
1901 from the Secretary to the
Government of Mysore in the
General & Revenue Departments
Calling for a report (1) Whether
St. Martha's Hospital has
broken any of the Conditions
specified in Government Pro-
ceedings No. B 228/32 dated
the 26th November 1892 and (2)
Why the Board should not
try to raise the whole sum
required for drainage and
other works in open market.

Resolved that the 1st point
raised above be referred to
a Committee consisting of

the following members for report:-

W. Cameron
" Venkataraniab
" Gangiah.

Resolved also that a report be sent to Government to the effect that the Board are willing to raise a sum of Rs 3,50,000/- in the open market if they are relieved of the Medical and Education Charges to the extent of Rs 23,647/- and the President be requested to explain the reasons for which this relief is asked for.

Bangalore 1st October 1901

From

H. V. Narayanas Esq.
Municipal President
Bangalore City.

To,

H. V. Nanjundayya Esq. - M.A.
Secy. to the Govt of Mysore
Rev. and Genl. Depts.

Sir,

In continuation of my
letter no. III dated 28th September regarding
the road in old Taraspet, Bangalore,
I have the honor to state that owing
to want of attention to it and the heavy
wear and tear to which it has been -
Subjected,

Subjected, it has now become utterly
impassable for any kind of traffic.

Stray cases of plague have also occurred
there and dead rats are found in some
of the mandies. I find therefore that it
is not merely inadvisable, but positively
dangerous to delay taking any action in
connection therewith. I have accordingly
started work on the road in anticipation
of sanction to the estimate for the work
which I am going to submit as early as
possible. The work that will be started
is the formation, metalling and gravelling
of the road, the opening up and clearing of
side-drains (which we have been

will, for the present, be kept open) and
repairing them wherever necessary. I—
expect that funds will be available in the
ordinary budget grants for this work; but
if that is found not possible I shall
suggest how the expenditure will be met.
The work is, however, of an extremely
urgent nature and can not be delayed
even a day. I have, therefore, started
the work and trust that the action taken
will meet with the approval of Government

I have the honor to be

Dear Sir

20

1. Consideration of a draft revised Budget for 1901-02 consistent with the reduction of establishments proposed in the Board's proceedings dated the 27th September 1900.

Resolution - deferred

2. The following estimates and plans for the improvement of the old Tharagupet in Bangalore.:-

	Rs.
(1) For constructing a combined sewer and storm water drain	6,955
(2) Do V shaped burnt stone slab surface drains, &c.	688
(3) For re-forming old Tharagupet road	1,079 11 33/4

Resolved that the estimates be passed and the work carried out as early as possible.

Report

The existing underground box, or old Tharagupete, built of burnt stone & without any foundation, which answer A purposes of both sewers and storm water drains, are very defective in construction have been a source of annoyance to public owing to the effluvia arising from the The levels of covering slabs of left drain range from 2 to 3 feet below the surface of Road and those of right drain say to 2 feet. It is not convenient to open these drains, frequently, for clearing silt or for carrying out other repairs. The joints of slabs and of stone work of side walls, being not watertight, sewage percolating through them, has rendered the place very unhealthy. Under these circumstances it is now proposed to rebuild the drain pukka with slight improvements.

2. It is a wrong thing to combine together a Sewer and a storm water drain, allowing different gasses to accumulate in large quantities. But as the present state of affairs do not permit of matters being put off till the drainage and Sewerage scheme is taken

in hand, the accompanying Estimate is framed to attend to this work at once.

3. Since it is objectionable to allow sewage to run on a broad surface, it is proposed to build a small gutter at the bottom of the drain with slabs well imbedded in concrete, with a view to create a head of water, to make the flow self effective in keeping the sewer clean, vide sections, accompanying, leaving the upper rectangular portion of the drain for the discharge of storm water. I would have designed for a small ovalbottomed sewer of masonry, but with a view to utilize the slabs available, I have designed the sewer to be built with burnt stone slabs, taking necessary precautions to make it water-tight.

4. To avoid gasses accumulating ventilators covered with iron gratings will be introduced at say 100 feet apart and on all cross drainages. The section of the projected drain having been made nearly $1\frac{1}{2}$ times that of the original one, according to requirements, of course keeping

Keeping a broad margin, it will allow of a man getting in easily to clean drain frequently. These ventilators be so constructed as to answer the purposes of manholes as well, and level will be only about 6" below top of surface of Road. Other items are self explanatory.

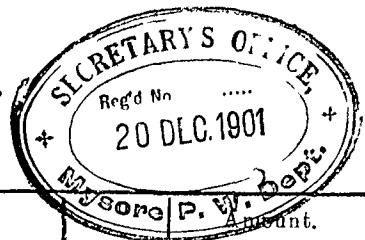

5. A conservancy lane having been recently opened to the south of old Tharagupete Road, there is no necessity for having a covered drain on the left side, since the drainage from other parts which was emptying into this drain is now diverted into the main drain directly. The left drain will therefore be dispensed with. It will however, be opened out and, after removing all the materials, filled with good earth and well consolidated.

This road is rendered untrafficable
 slowing the carts to stand there and bullocks
 fed and. owing to the throwing of a very
 quantity of grass for the latter purpose, the
 becomes ill-dressed in a very short time and
 some of the bullocks and other kind of
 are absorbed by the road. This has been a
 vice for all sorts of diseases and the
 the side drains ~~are~~ on the requisition
 merchants ~~are~~ made matter.

As the President ins it absolute
 necessary to restore the side and undergroun
 drains, the foregoing Estimate is framed
 metal the road 4 1/2" thick for an average width
 of 7 yards. There is a provision of Rs 1500 for the
 metal repairs of this road made in the Budget
 for the current Official year. The saving of Rs 367
 by cutting down the width of road to the metalled
 4 yds with a view to leave a margin for the accor
 drains will be transferred to other important road
 have been struck off the Budget for want of funds
 required in 1893-94.

M. V. Narasimhaiah Iyer, A. I. C. S.,

Secretary to the Government of Mysore,

General and Revenue Department.

SIR,

With reference to your letter No. 305/L.T. 116-25 of 19th ultimo, I have the honour to return the estimate for the improvement of the old Narayana road in Bangalore City, including construction of drains, duly checked and corrected to Rs. 8742 and to inform you that the small difference is due to slight correction under side walls of sewer and storm water drain in superstructure.

The other enclosures are returned.

I have the honour to be,

Sr,

Your most obedient servant,

T. Deane Campbell

Chief Engineer of Mysore

Chief Engineer of Mysore
